Yes

The Lord declares that you are coming into days of deep repentance - days of deep repentance are coming upon the earth. Great sorrow and mourning, great weeping and repentance will come to the church. The Lord says, do not be surprised at the different ways in which the Lord will lead you.

Do not be surprised at the different kinds of meetings that you will have. Do not be surprised at the way in which the Lord deals with His church. Do not be surprised by the way in which the Lord will lead, for He will lead in different ways because as you come into different seasons God has different emphases.

There is a time coming, and is quickly approaching, when there will be deep, deep repentance upon the face of the church. This always produces that which can be rather unsettling, maybe even dismaying to many. Many who will not understand what the Lord is doing and will be afraid of it. But it is a necessary, urgent and important step that must come first.

Great will be the wailing. Great will be the tears. Great will be the depth of brokenheartedness. Great travail will come upon the church, for it is a season that the church must go through in order to be prepared for the things that God wants to bestow upon her and the things that God will bring to pass.
